Sangeon Jeon

455 14TH ST NW, Atlanta, GA 30318 | 404-372-2900 | sjeon84@gatech.edu | F-1

Objective

Highly intuitive junior electrical engineering major with a passion for neuroscience. Interested in the mathematical principles behind neuroscience. Maintain consistent performance under stressful circumstances. **Seeking for research experience for the 2024 Spring semester in neuroscience.**

Education

Georgia Institute of Technology | Atlanta, GA *January 2023 – Present*
Bachelor of Science in Electrical Engineering, GPA 4.00 /4.0 Expected Graduation, May 2024

Korea Advanced Institute of Science and Technology | Daejeon, South Korea *February 2018 – Present*
Bachelor of Science in Electrical Engineering, GPA 3.92 /4.3 Expected Graduation, Feb 2025

Skills

Programming: Java, Python, C, C++, C# WPF, MATLAB, Excel VBA, Verilog(beginner), Pytorch(beginner), Numpy(beginner)
Hardware: Oscilloscope, Digital Multimeter, Breadboard, ATmega128A
Languages: Korean (native), English (conversational), Japanese (beginner)

Experience

Georgia Institute of Technology | Atlanta, GA
Junior Design Project: RoBACHtic Symphony *Fall 2023*

- Engineered a violin-playing machine triggered by piano keyboard inputs.
- Led the mechanical design and assembly phases.
- Authored over one-third of the project documentation, including the Market Analysis, and Technological Verification sections.

Korea Advanced Institute of Science and Technology | Daejeon, South Korea
NICA Lab Undergraduate Research Assistant *Spring 2020*

- Studied about Convolutional Neural Network with Stanford CS231n; Learned how to use Pytorch

Tutor *March – December 2019*

- Tutored two freshmen for 'Introduction to Programming' course on Spring semester, and 'Calculus I' course on Fall semester
- One of students got an A+ on 'Calculus I'

Dong Il Technology LTD | Hwaseong, South Korea *June – August 2018*
Intern / Human Resource

- Studied VBA and made an excel file that generates job performance evaluation sheets and sends them to each employee.
- Permanently reduced the working time of about three days per quarter which was spent on this task previously.

Dong Il Vision | Anyang, South Korea *June – August 2023*
Intern / Software Engineer

- Made a labeling program with C# WPF, which facilitates labeling the position of objects in pictures for the machine learning.
- Contributed to make a whole computer vision system, which in turn differentiate the product from others.

Awards

Dean's List at KAIST *Spring 2018, Fall 2022*

- Award for top 3% students in academic performance

Relevant Coursework

Fundamental of DSP: DFT; Overlap Add/Save; FFT & IFFT Algorithm; Kaiser Window; PCA
Random Signal Processing and Its Application: MMSE; MVUE; MLE; MoM Estimator; BLUE; LLSE; Markov Random Field
Signal and System: LTI System, DTFS; CTFS; DTFT; CTFT; Laplace Transform; Z Transform; Nyquist's Theorem
Probability and Introductory Random Processes: WSS/SSS; Poisson Point Process; Markov Process
Linear Algebra: Eigenvalue/vector; Diagonalization; Jordan Rational Form; Spectral Theorem; Characteristic/Minimal Polynomial;
